Shelving Innovation

Custom Shelving & Racking

Our in-house team of design specialists and engineers can create a shelving solution or an entire retail shelving system for independent retailers or retail chains alike. From concept to production, we make the process easy and hassle-free. Showfront can custom make any metal shelving or storage racking system. We design, engineer and build it to suit your requirements.

MR41 Shelving System

This system is tough and strong and can hold the heaviest of weights. The MR41 is backed up with heavy duty metal punch board (also known as volcano board), in easy to install sections. Two widths are available 914mm or 1200mm. We have many extras to suit the core system to enhance your merchandising. Items such as tool holders, straight and cranked arms as well as various sizes in hooks and display beams.

Ample Flexibility

Offering ample flexibility, our adjustable, metal shelving gondolas include single-sided and double-sided units and are ideal for convenience stores and smaller retailers. We can also customise for larger retail chains and supermarkets

Showfront offers a heavy duty retail shelving and racking solution incorporating re-enforced metal shelves, heavy duty brackets and box slotted posts.
